**FARI A LED PER MARCIA DIURNA**

Universali, 6.000 °K.  
Led ultra bianchi ad alta luminescenza.  
Basso assorbimento, lunga durata.  
Alta visibilità in tutte le condizioni atmosferiche

**UNIVERSAL DAY RUNNING LIGHTS**

6.000 °K Color temperature.  
Ultra-white high brightness.  
Low power consumption for fuel saving

**6000°K**  
COLOUR TEMPERATURE

**LED**

**ECE R87**  
OMOLOGATI  
APPROVED

**2**  
pcs

I fari DRL (luci di marcia diurna) possono essere utilizzati solamente durante le ore diurne e non possono essere accesi in contemporanea con gli anabbaglianti.  
DRL Day Running Lights may be turned on during daytime only and may not be used simultaneously with head lights.

Utilizzando questi fari a led con specifica omologazione RL (LUCE DIURNA) non è necessario l'accensione dei fari anabbaglianti e delle luci di posizione.

- minore assorbimento di corrente = minore consumo di carburante
- minore deperimento e consumo di lampade = maggiore risparmio
