Queste lampadine a led hanno un'elevata intensità luminosa e rendono il veicolo visibile a grande distanza anche in condizioni atmosferiche critiche (nebbia, pioggia, ...). Il fascio luminoso proiettato però, non è adeguato ad illuminare la carreggiata durante la guida notturna.

These high-brightness led bulbs make your vehicle visible at high distances and in all atmospheric conditions (fog, rain, ...). The projected light beam is not suitable for driving on the road during the night.
